

## ENERGY STAR CERTIFIED Computers

### DELL - P178G : Latitude 7350

#### Specifications

|                                                                                                                                                                  |                    |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|
| ENERGY STAR Unique ID:                                                                                                                                           | 3360668            |
| Brand Name:                                                                                                                                                      | DELL               |
| Model Name:                                                                                                                                                      | P178G              |
| Model Number:                                                                                                                                                    | Latitude 7350      |
| Type:                                                                                                                                                            | Notebook           |
| Category 2: Processor Brand:                                                                                                                                     | Intel              |
| Category 2: Processor Name:                                                                                                                                      | Core™ Ultra 7 165U |
| Category 2: Base Processor Speed Per Core (GHz):                                                                                                                 | 1.7                |
| Category 2: Physical CPU Cores (count):                                                                                                                          | 12                 |
| Category 2: System Memory (GB):                                                                                                                                  | 64                 |
| Category 2: Default Low-power Mode:                                                                                                                              | ALPM               |
| Category 2: Long Idle Power Used for Sleep Mode:                                                                                                                 | Yes                |
| Category 2: Off Mode (watts):                                                                                                                                    | 0.3                |
| Category 2: Sleep Mode (watts):                                                                                                                                  | 0.6                |
| Category 2: Long Idle (watts):                                                                                                                                   | 0.6                |
| Category 2: Short Idle (watts):                                                                                                                                  | 4.8                |
| Category 2: Base TEC Allowance (kWh):                                                                                                                            | 14                 |
| Category 2: Functional Adder Allowances (kWh):                                                                                                                   | 29.3               |
| Category 2: TEC of Model (kWh):                                                                                                                                  | 16.0               |
| Notebooks, Desktops, Integrated Computers, Slate/Tablets, Two-in-one Notebooks, and Portable All-in-ones Category for TEC (Typical Energy Consumption) Criteria: | 2                  |
| Category 2: Operating System Name:                                                                                                                               | Windows 11         |
| Sleep Mode Default Time Upon Shipment (min.):                                                                                                                    | 10                 |
| Display Sleep Mode Default Time Upon Shipment (min.):                                                                                                            | 10                 |
| Will the Speed of Any Active 1 GB/s or Higher Ethernet Network Links be Reduced to Less Than 1 GB/s When Transitioning to Sleep or Off Mode?:                    | No                 |
| Ethernet Capability:                                                                                                                                             | No                 |
| Touch Screen:                                                                                                                                                    | No                 |

|                           |                                                   |
